

T50 Mobile Screen

The T50 screen is the first full HD trailer of this size in the market, this allows for multiple picture in picture solutions and very detailed content to be displayed. This is the most comprehensive trailer of its type in the UK, it is smart looking with the 2 pac black paint with a lacquered protective finish. Hydraulic stage opening side with canopy. There is a comprehensive control room with audio, lighting and video production facilities. Sliding roof solution that closes around the mast to create a watertight stage area. This trailer can be deployed in less than 45 minutes.
